

# Hepatitis C: State of Medicaid Access Report Card

## Michigan

Grade	Recommendations to Improve Patient Access
<b>A+</b>	<ul style="list-style-type: none"> <li>Continue to ensure broad access to HCV treatment</li> </ul>

### State Overview

As of August 2025, 2,323,530 individuals were enrolled in Medicaid and CHIP.<sup>1</sup> It is estimated that as of 2016, 69,100 people were living with HCV in Michigan.<sup>2</sup> Michigan's Medicaid program operates a Fee-For-Service (FFS) program and contracts with Managed Care Organizations (MCOs). Most beneficiaries, 76.0 percent, are enrolled in a MCO and the remaining 23.9 percent participate in FFS.<sup>3</sup> Michigan Medicaid contracts with over a dozen MCOs, separated by the county that the enrollee lives in.<sup>4</sup> The Michigan Department of Health and Human Services (MDHHS) carved out hepatitis C direct-acting antivirals (DAAs) from all MCO contracts, thus all FFS requirements apply across the entire Medicaid program.<sup>5</sup>

The Michigan Medicaid Preferred Drug List lists Mavyret as the preferred regimen.<sup>6</sup> Michigan Medicaid purchases Mavyret via a modified subscription model contract that began April 1, 2021.<sup>7</sup>

Deductions		Policy
Prior Authorization		Prior authorization is not required for the preferred regimen (Mavyret). <sup>8</sup>
Fibrosis Restrictions		Michigan Medicaid does not impose fibrosis restrictions. <sup>9</sup>
Substance Use Restrictions		Michigan Medicaid does not impose substance use restrictions. <sup>10</sup>
Prescriber Restrictions		Michigan Medicaid does not impose prescriber restrictions. <sup>11</sup>
Retreatment Restrictions		Michigan Medicaid does not impose retreatment restrictions. <sup>12</sup>
Access in Managed Care		MCOs impose the same requirements as FFS. <sup>13</sup>
Additional Restrictions		Michigan Medicaid does not impose additional restrictions. <sup>14</sup>
<b>Total Deductions</b>		<b>Total Score [100-Deductions]</b>
